

Digital Conversion Services: Negatives to USB

Convert your precious photo memories once captured on film to digital. We scan your negatives in high quality .jpg format, add a basic colour touchup, remove any red eyes & save the images onto a USB for you. If booking more than 1 roll of film, they will **ALL** be saved onto the **SAME USB** in separate folders.

To book your conversion service with us, please complete our online contact form with your details:

www.fourteen92productions.com.au/digital-conversions/negatives/

We will email you a quote within **2 business days**. Upon accepting quote, an invoice with bank transfer details will be emailed to you. Once payment has been received, a date & time will be organised with you for pickup and/or drop-off of your negatives. If booking multiple services, please complete a separate form for each service (where applicable, a pickup/drop-off fee will only be charged once as we will book your services as 1 full job).

FULL PAYMENT IS REQUIRED BEFORE ANY WORK IS STARTED. This includes pickup/drop-off of your negatives.

Liability

Due to the nature of film & its diminishing quality over time, unfortunately negatives sometimes have scratch marks and/or can damage in our conversion machine due to their fragile nature. This damage can't be undone. Running lines & poor colour are other factors which may occur to negatives over time. These issues can't be fixed & are all beyond our control. If any of these issues arise whilst we are scanning negatives, we WILL NOT be liable for any damages. You WILL NOT be compensated for any colour, scratches or negative quality/damage issues which may occur.

By booking our services, you agree to these conditions. At time of pickup/drop-off you will be required to sign 2 copies of these T&Cs (one for our records & one for you to keep).

If you have any further questions, please don't hesitate to contact us.
